## **BEFORE YOU DO ANYTHING...**

Follow the Installation Steps, then the Activation Steps, as explained.

## **Do you have a Demo version?**

If you downloaded or were given a **Demo version**, the product will run for 30 days and then quit. You will need to purchase a product key to keep using SpotOn!. During the 30 day trial period the Demo version has full functionality. Please contact [sales@spotonpress.com](mailto:sales@spotonpress.com) or your dealer to purchase the full version.

## **Measurement Instruments**

Here is a list of instruments that work with SpotOn!:

- X-Rite i1 Pro
- X-Rite 530
- X-Rite 939
- X-Rite SpectroEye
- X-Rite SP62-64
- Techkon SpectroDens (Windows only)
- Konica-Minolta FD-7 (Windows Only)

# INSTALLATION STEPS FOR WINDOWS SERVER

## WINDOWS

Step 1: Double-click on the *SetupSpotOnServer.exe* file to launch the installation wizard.

Step 2: Follow the steps in the wizard to install SpotOn! Server.

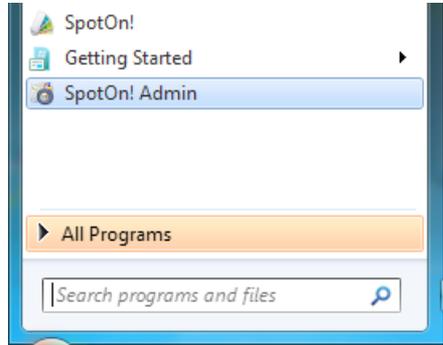

Step 3: Click *Finish*. SpotOn! Server is installed and running in the background as a service with a default administrative user called *admin* with a password of *admin*. See the next section to set up more users.

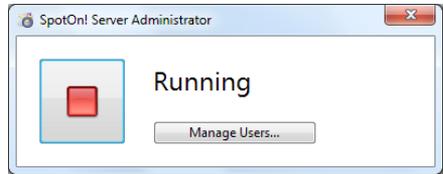

# SERVER SETUP

## WINDOWS

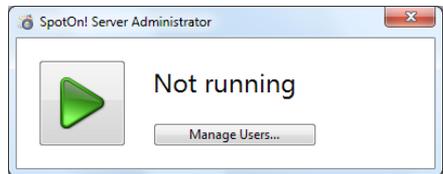

Step 1: Click the *SpotOn! Admin* shortcut in the *Start* menu to launch the Server Admin application.

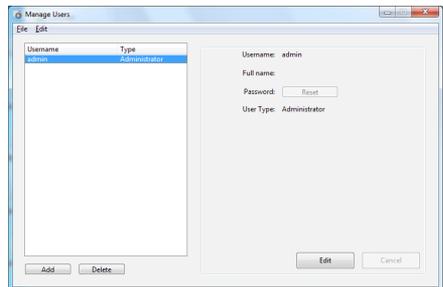

Step 2: The Server Admin app allows the user to turn the server service on or off. When installed, it is on by default. Click the red icon button to turn the server off.

Click the green arrow icon to turn the server on. The Server Admin app is also where users are set up.

Step 3: Click *Manage Users* to add, edit, or remove Users. The Manage Users window will appear where these administrative functions can be performed.

Step 3: Click *Add* to add a new User. The Create New User window will appear. Fill in the *Username*, *Full name*, and *Password* for the new user. Pick the *User Type*. An *Operator* can only access the *Instruments* section in *Settings*. An *Administrator* has full functionality.

**Create a New User**

Create a new user login

Username:

Full name:

Password:

Re-enter Password:

User Type:  Operator  
 Administrator

Step 4: To edit a User, select the User in the list on the left and click *Edit*.

**Manage Users**

File Edit

Username	Type
admin	Administrator
bruce	Operator

Username: bruce  
Full name: Bruce Bayne  
Password:    
User Type:  Operator

Step 5: Everything except the *Username* can be changed when editing a User. The only way to change a *Username* is to delete the User and add a new User with a different name. Click *Save* to save the User changes.

**Manage Users**

File Edit

Username	Type
admin	Administrator
bruce	Operator

Username: bruce  
Full name: Bruce Bayne  
Password:    
User Type:  Operator  
 Administrator

Step 6: To change the *Password*, click *Reset*. In the Change Password window create a new Password and re-enter it. Click *Change Password* to save the new Password for the User being edited.

**Change Password**

Reset user's password

Login name: bruce

New Password:

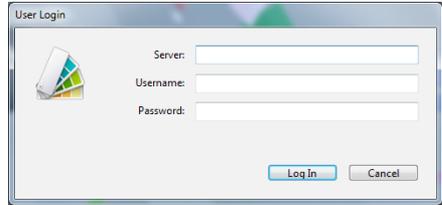

Re-enter Password:

# CLIENT LOGIN

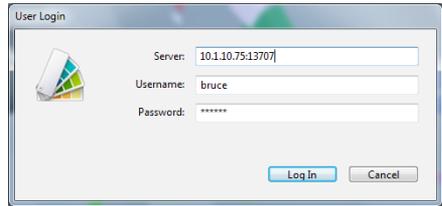

## WINDOWS and MAC

Step 1: When a User logs into a newly installed and registered SpotOn! Client for the first time, a blank User Login screen appears. Enter the Server IP address with :13707 at the end, the *Username* and *Password*. Click *Log In* to start using the Client.

Note: In subsequent Logins, the User isn't required to re-enter the Server or Username, as SpotOn! remembers the previous Login. Only the Password needs to be re-entered.

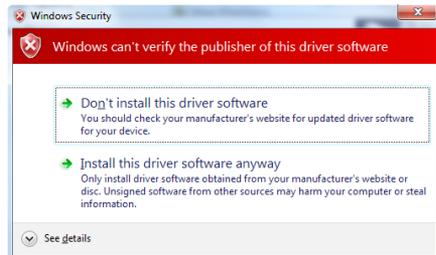

# INSTALLATION STEPS FOR WINDOWS CLIENT

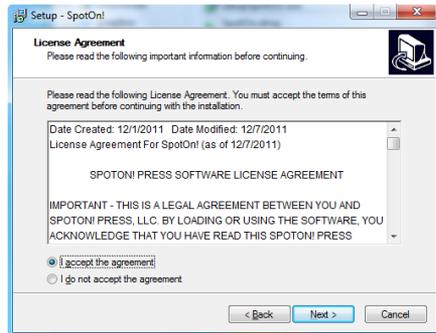

## WINDOWS

Step 1: Double-click on the *SetupSpotOn!.exe* file to launch the installation wizard.

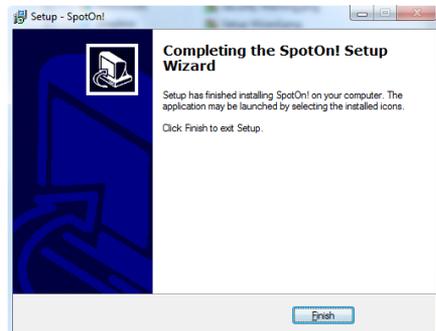

Step 2: Follow the steps in the wizard to install SpotOn!. If a Security Warning window appears select *Run* or *Install this driver software anyway* to continue with the installation wizard.

Step 3: Read the *License Agreement* carefully and if you accept the conditions of the agreement click the *I accept the agreement* radio button.

Step 4: Click *Finish*. SpotOn! is installed and ready to use for 30 days, or purchase a *Product Key* to activate for unlimited use.

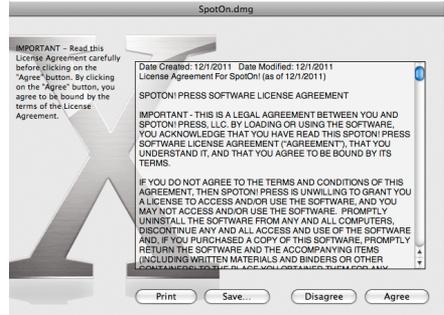

# INSTALLATION STEPS FOR MAC CLIENT

## MAC

Step 1: Double-click on the *SpotOn.dmg* file to mount the SpotOn! disk image.

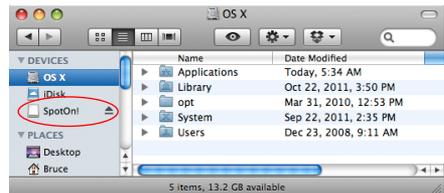

Step 2: Read the *License Agreement* carefully and if you accept the conditions of the agreement click the *Agree* button.

Step 3: Drag the SpotOn! icon onto the Applications icon.

Step 4: Eject the SpotOn! disk image. SpotOn! is installed and ready to use for 30 days, or purchase a *Product Key* to activate for unlimited use.

# ONLINE ACTIVATION STEPS

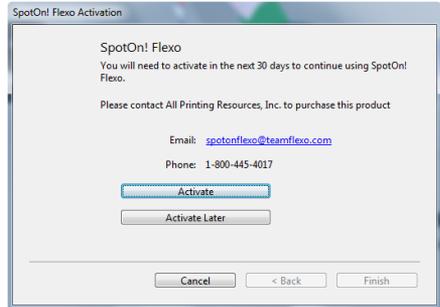

## WINDOWS and MAC

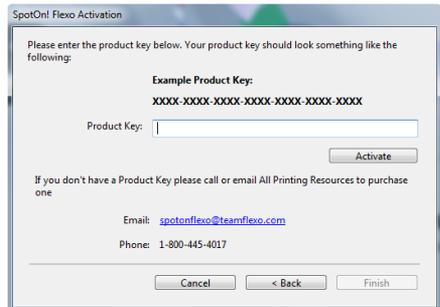

### IMPORTANT NOTICE:

Make sure the computer SpotOn! was installed on is connected to the internet and a *Product Key* is available to activate SpotOn!.

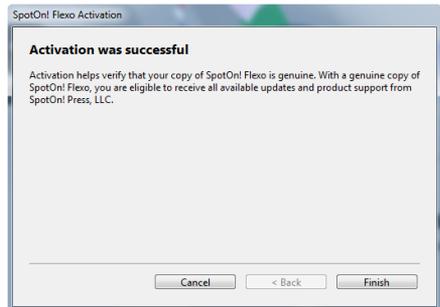

Step 1: Launch SpotOn! and click the *Activate* button on the Activation window.

Step 2: Enter the *Product Key* and click *Activate*.

Step 3: This window will appear if the activation is successful. Click *Finish* to complete the activation process.

# OFFLINE ACTIVATION STEPS

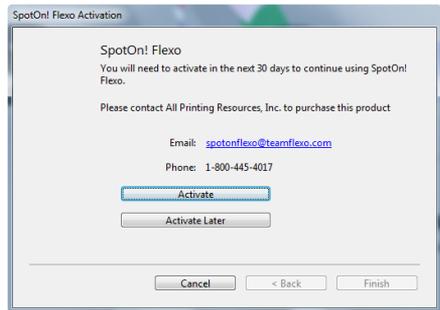

## WINDOWS and MAC

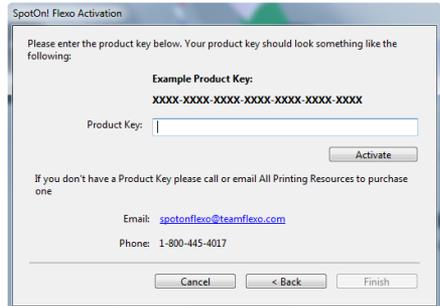

### IMPORTANT NOTICE:

Offline activation is a two part process. It requires an *Activation Request* file be emailed to [activation@spotonpress.com](mailto:activation@spotonpress.com). A reply will be email back with an *Activation Response* file that will be used to finish the activation process. Make sure a *Product Key* is available to activate SpotOn!.

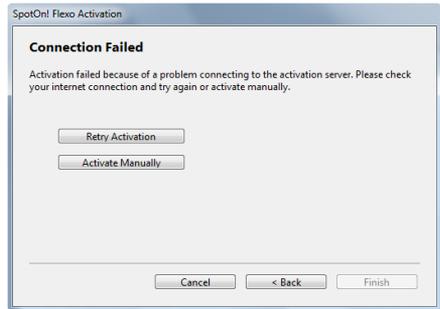

Step 1: Launch SpotOn! and click the *Activate* button on the Activation window.

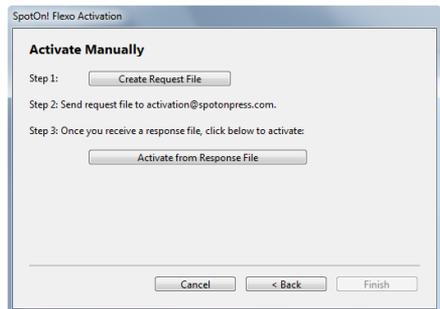

Step 2: Enter the *Product Key* and click *Activate*.

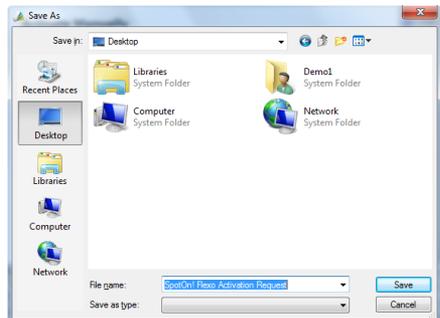

Step 3: This window will appear if the computer is not connected to the internet. Click *Activate Manually* to start the offline activation process.

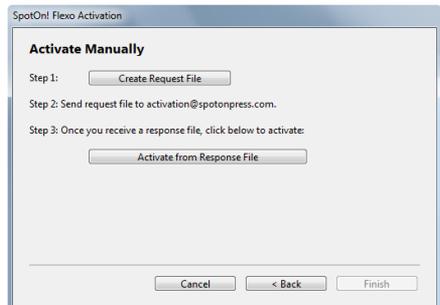

Step 4: Click *Create Request File* to save the *SpotOn! Activation Request* file.

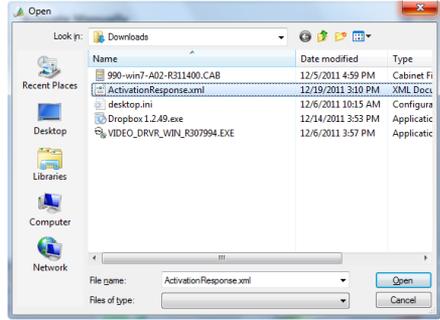

Step 5: Click *Save* to save the *SpotOn! Activation Request* file where it can be copied to a another computer and emailed to *activation@spotonpress.com*. A reply will be emailed back with an *ActivationResponse.xml* file to finish the activation process.

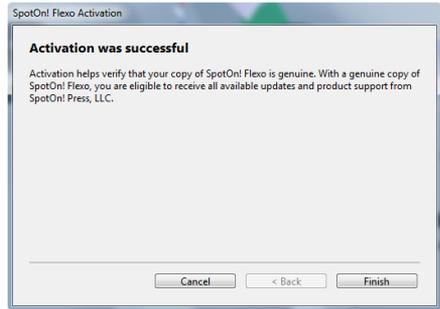

Step 6: Copy the *ActivationResponse.xml* file to the SpotOn! computer and click *Activate from Response File* to continue the activation process.

Step 7: Find the *ActivationResponse.xml* file and click *Open*.

Step 8: This window will appear if the activation is successful. Click *Finish* to complete the activation process.
