BEFORE YOU DO ANYTHING...

Follow the Installation Steps, then the Activation Steps, as explained.

Do you have a Demo version?

If you downloaded or were given a **Demo version**, the product will run for 30 days and then quit. You will need to purchase a product key to keep using SpotOn!. During the 30 day trial period the **Demo version** has full functionality. Please contact <u>sales@spotonpress.com</u> or your dealer to purchase the full version.

Measurement Instruments

Here is a list of instruments that work with SpotOn!:

X-Rite i1 Pro and Pro 2 X-Rite eXact (Windows only) X-Rite 530 X-Rite 939 X-Rite SpectroEye X-Rite SP62-64 Techkon SpectroDens (Windows only) Konica-Minolta FD-7 (Windows Only)

INSTALLATION STEPS FOR WINDOWS SERVER

WINDOWS

- Step 1: *Double-click* on the **SpotOnServer.exe** file to launch the installation wizard.
- Step 2: Follow the steps in the wizard to install SpotOn! Server.

Step 3: Click *Finish*. **SpotOn! Server** is installed and running in the background as a service. The default administrative user is called **admin** with a password of **admin**. See the next section to set up more users.

SERVER SETUP

WINDOWS

Step 1: *Click* the **SpotOn! Admin** shortcut in the Start menu to launch the Server Admin application.

Step 2: The Server Admin application allows the user to turn the server service on or off. When installed, it is on by default. *Click* the red icon button to turn the server off.

> *Click* the green arrow icon to turn the server on. The Server Admin application is also where additinal users can be added and configured.

👩 SpotOn! Server A	dministrator	-	
	Not running		
	Manage Users	Show Log.	

- Note: The **Show Log...** button will open a window where the database and log files are stored, making it easy to find for backup purposes and troubleshooting.
- Step 3: *Click* Manage Users to add, edit, or remove Users. The Manage Users window will appear where these administrative functions can be performed.

Manage Users		×
e <u>E</u> dit		
Usemame 20min	Type Adamondotator	Username edmin Full name Petravool <u>Emet</u> Use Type Administrator
Add	Delete	Edit Cencel

Step 4: *Click* Add to add a new User. The Create New User window will appear. Fill in the Username, Full name, and Password for the new user. Pick the User Type. An Operator can only access the Instruments section in Settings. An Administrator has full functionality.

CLIENT LOGIN

WINDOWS and MAC

Note: When the SpotOn! Client is launched for the first time a **Server Setup** window opens asking the user to choose between **Local Mode** and **SpotOn! Server Mode**. Choose the mode. This choice

can be changed in the **General Settings** section once a setting has been chosen.

Step 1: When a User logs into a newly installed and registered SpotOn! Client for the first time, a blank User Login screen appears. Enter the Server IP address with :13707 at the end, the Username, and Password. Click Log In to start using the Client. If Server Mode was accidentally chosen and there is no server installed, click the Use local database... button to switch back to Local Mode.

Note: In subsequent Logins, the User isn't required to re-enter the Server or Username, as SpotOn! remembers the previous Login. Only the Password needs to be re-entered for security purposes.

ONLINE ACTIVATION STEPS

WINDOWS and MAC 🛛 赵 🙀

IMPORTANT NOTICE:

Make sure the computer SpotOn! Flexo was installed on is connected to the internet and a **Product Key** is available to activate SpotOn!.
